

Assignment date	07 November 2022
Student Name	Ms.K.Suriya
Student Roll Number	821719106026
Maximum Marks	2 Marks

Question-4

Write code and connections in wokwi for the ultrasonic sensor

Code

```

/*
  Ultrasonic Simple
  Prints the distance read by an ultrasonic sensor in
  centimeters. They are supported to four pins ultrasound
  sensors (like HC-SC04) and three pins (like PING))
  and Seed Studio sensors).

  The circuit:
  * * Module HR-SC04 (four pins) or PING))) (and other with
    three pins), attached to digital pins as follows:

  -----
  | HC-SC04 | Arduino |   | 3 pins | Arduino |
  -----
  |   Vcc   |   5V    |   |   Vcc   |   5V    |
  |   Trig  |   12    | OR |   SIG  |   13    |
  |   Echo  |   13    |   |   Gnd   |   GND    |
  |   Gnd   |   GND   |   | -----
  -----

  Note: You do not obligatorily need to use the pins defined above

  By default, the distance returned by the read()
  method is in centimeters. To get the distance in inches,
  pass INC as a parameter.
  Example: ultrasonic.read(INC)

*/

#include "Ultrasonic.h"

/*
  Pass as a parameter the trigger and echo pin, respectively,
  or only the signal pin (for sensors 3 pins), like:
  Ultrasonic ultrasonic(13);
*/
Ultrasonic ultrasonic(12, 13);
int distance;

```

```

void setup() {
  Serial.begin(9600);
}

void loop() {
  // Pass INC as a parameter to get the distance in inches

  distance = ultrasonic.read(CM);

  Serial.print("Distance in CM: ");
  Serial.println(distance);

  distance = ultrasonic.read(INC);

  Serial.print("Distance in Inches: ");
  Serial.println(distance);

  delay(1000);
}

```

Output

The screenshot shows the Wokwi IDE interface. On the left, the code for the simulation is displayed, including comments and a setup function. The simulation window on the right shows an Arduino Uno board connected to an HC-SR04 ultrasonic sensor. The serial monitor displays the output of the code, showing distance readings in both centimeters and inches.

Code Snippet:

```

23 pass INC as a parameter.
24 Example: ultrasonic.read(INC)
